Good Afternoon,

CRE has been contracted to perform a Phase I ESA portfolio project across the state of VT. This portfolio consists of more than 10 gas stations across the state. We will need records of all USTs and like reports. My question for you would be if there is an easier way to submit FOIA requests for so many properties than to do it individually? For example, I could send a spreadsheet of each property address or something along those lines. Thanks!

Thank you,  
Sarah Jackson
